The matter was last discussed in 101st Meeting of EC held in 12, 13 & 14th January, 2021 and the committee noted that the unit was earlier exists and operated in Gujarat and thereafter

shifted to Palghar, Maharashtra and started its production only in April, 2018 after obtaining necessary permission/approvals from Maharashtra Pollution Control Board and. In view, EC opined that the unit is not fulfilling the criteria of at least 3 years of production track record for consideration of their application. Therefore, the EC recommended to defer the application stating that application along with all requisite details may be considered only in next financial year.

Now the applicant fulfilled the criteria of at least 3 years production track record.

The matter was last discussed in 99th Meeting of EC held in June, 2020 and the committee recommended Site Visit by CPCB.

Now the applicant has informed that they were approached by CPCB for our factory site visit in July 2020, however due to the unfortunate accident with the building they had requested CPCB to postpone the visit till the completion of work. After completing the repair work in January 2021(Photographic evidence showing present condition of the factory is also attached) the applicant then approached the CPCB in February 21 for inspection of the factory. Due to the pandemic and the restriction of working staff and various restrictions imposed by the government, CPCB visit are still awaited. They have further mentioned that It's already around 1 year and they are in a very bad situation and requested to grant some ad-hoc quantity and rest after site visit by CPCB.
